Assistant Director  
Office of Reports and Estimates

26 September 1947

Executive for Inspection and Security

25X1A

Reference is made to your memorandum dated 24 September 1947, subject: "Employment of Consultants", concerning the appointment of consultants to be used in an Air Policy project presently under way.

This is to advise that this office interposes no objection to the immediate appointment of the subject on a WAE consultant basis under the general provisions set forth in paragraph three of the above-referenced memorandum, i.e., that desk space will be in non-IAB agencies, that the consultants will not have access to classified material, and that they will not be issued C.I.A. badges.

In the future it would be helpful in effecting a name check with other government agencies if information concerning the date and place of birth of the individual under consideration were furnished in addition to his present address and occupation.
